

## Professional Profile

I am a proficient software developer with 9 years of professional IT experience which includes 6 years of .NET architecture and development. Various articles and community support publicly illustrates my commitment to .NET and accompanying technologies. With over 20 professional C# applications in production within government, public, and private enterprises I'm able to exhibit abilities to accomplish an array of projects. I have listed some of my current professional skills below:

- Object Oriented Programming
- Service Based Smart Clients (SBSC)
- Client/Server Programming
- UML/GOF Modeling
- C# / VB.NET
- Microsoft .Net v3.5 to 1.1
- Service Oriented Architectures (SOA)
- ASP.Net Web Applications
- n-Tier Architectures
- Geospatial Applications
- MS SQL, TSQL, 2008 SQL CLR
- Visual Studio 2008 to 2003
